

# 2022 Employee Survey

## INCLUSION DEMOGRAPHIC REPORT

This report contains questions from the employee survey, as it pertains to the employee characteristic: Inclusion. These are the questions used to measure for Inclusion and contain data from the 2021 and 2022 employee survey results. The responses to these questions have been provided in various demographics groups such as ability, age, gender, and ethnicity.

It is not our intention to create division within our organization. We do want to share the experiences of our underrepresented employees at work. What is true for one individual, may not necessarily be true for another. Likewise, the perception of one is not the perception of another.

**AS YOU REVIEW THE REPORT, PLEASE KEEP THE FOLLOWING IN MIND:**

\* Our Ability data is pulled from self-reporting fields listed in UKG.

\*\* Our EEO reports require gender to be collected in binary terms, male or female. We are aware of this limitation in our system and consider it an area of opportunity for future growth.

‡ To maintain the integrity of the survey, prevent possible identification, and to encourage future participation the ethnicities that make up a smaller portion of our employee population are being kept confidential. Those ethnicities that are not labeled may include: 2+ Races, American Indian/Alaskan Native, Asian, Black or African American, Hispanic or Latino, or White.

To continue to move forward in building a more inclusive organization we need to know where we are now. As we work toward building a more inclusive organization, we want to share information that helps illustrate how we each experience work.

EMPLOYEE SURVEY QUESTION

I am appropriately involved in decisions that affect my work.

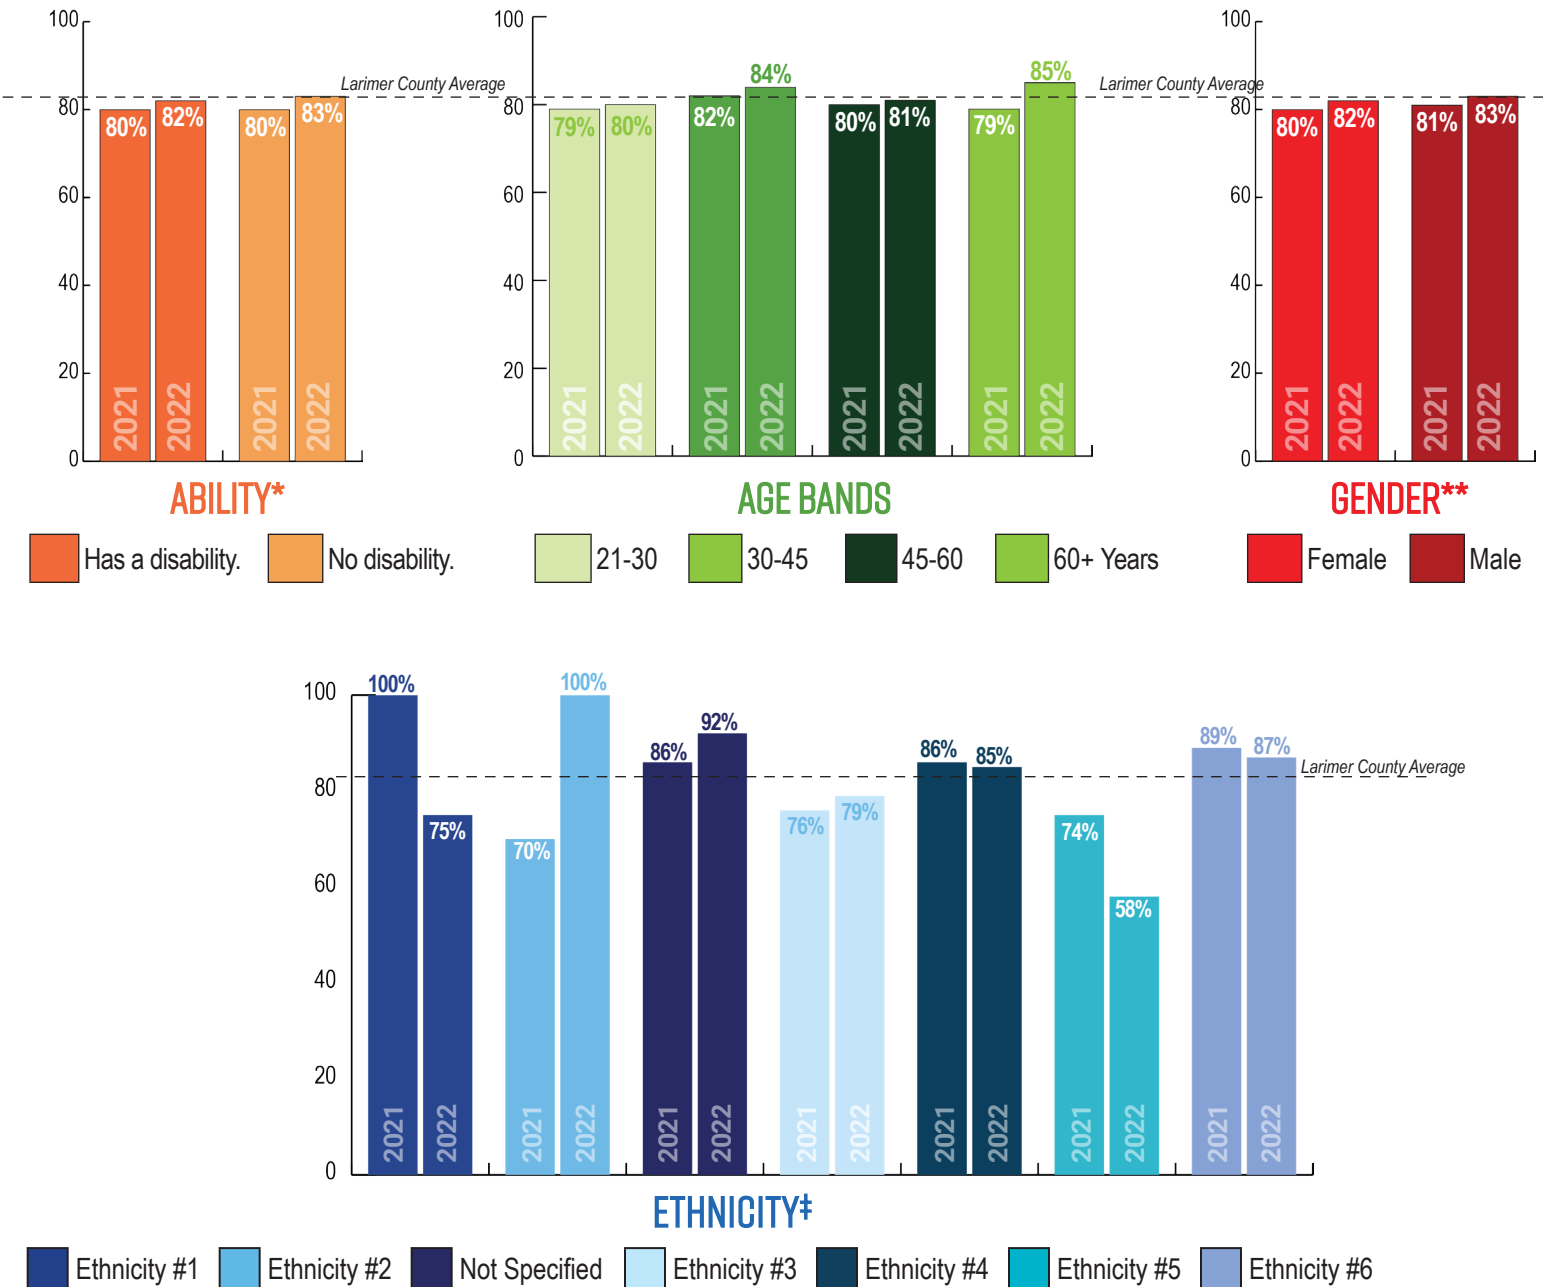

Larimer County = 66% Agreement
