

## Larimer County 4-H Livestock Record Book

*Welcome to the record keeping portion of your livestock project!*

Only one species per book

Youth are encouraged to work with a caring adult to complete their record book.

This book should be filled out to the best of your ability.

Each Record Book should be in a three ring binder.

Read directions at the top of each page carefully.

All questions should be answered in complete sentences.

All pages should be included in record book, even if they don't pertain to your project.

Keep your receipts from purchases made throughout your project.

Proof read your answers, story, and photo captions.

Record Books must be turned in to club leaders for project completion following county fair.

If members choose to participate in the Record Book Contest, Club/Project Leaders need to have the books to the Extension Office by 9/15

**Certain sections will indicate what age group(s) (Junior, Intermediate, Senior) are required to complete.**

Please ask your Species Key Leaders or Extension Specialist if you have any questions!

**2025-2026**

What is the percent protein in your grain?	
What is the percent fat in your grain?	
Do you feed a mineral? Why or why not?	
Did you feed any supplements this year? Why or why not?	
What is the most important nutrient for your animal to receive? How often should it be available to them?	
How many days has your animal been on feed?	
On average how much grain do you feed your project animal(s) per day?	
Total pounds of grain fed from purchase date or tag-in to the county fair?	
Total cost of grain purchased?	
Total pounds of hay fed from purchase date or tag-in to the county fair?	
Total cost of hay purchased?	

### Market Project Calculations

ID	Avg Daily Gain	Feed Efficiency (Required for Seniors)	Cost per Gain		Average Daily Gain Chart	
					Average Daily Gain	Pounds per day
					Beef	2.75 lbs.- 3.25 lbs.
					Goats	0.25 lbs.- 0.35 lbs.
					Sheep	0.5 lbs. - .8 lbs.
					Swine	1.5 lbs. - 2 lbs.

Calculate the average of all project animal(s) listed above for Daily Gain. Document it. Are they above, below, or in the range for the expected weight gain using the chart above?

**(Intermediates and Seniors)** Was your feeding program designed to maximize (push) or maintain your project animal(s) according to the avg. you calculated above? Why?:
