Prenotification

- Biopsies
- Vascular access devices/ports for chemotherapy delivery
- Creation and revision of arteriovenous fistula or vessel-to-vessel cannula for dialysis treatment delivery
- Dialysis

We recommend you obtain precertification from your plan if procedures could be considered experimental/investigational or are potentially cosmetic in nature (such as, but not limited to: abdominoplasty, cervicoplasty, liposuction/lipectomy, mammoplasty, augmentation and reduction [includes removal of implant], morbid obesity procedures, septoplasty, etc.).

Precertification of these benefits ensures the requested service is medically necessary and appropriate. All items listed here may not be covered under your plan even if it is determined that the requested service is medically necessary. To determine whether a benefit is covered or excluded, please review the eligible medical benefits and/or exclusions sections of your plan.

We are Meritain Health

As Advocates for Healthier Living, we provide easy-to-use health care benefits you can use to live well. We also take steps to help you save on the cost of your care. Contact us at the number on your ID card if you have any questions about your plan.
