

## RED FEATHER LAKES ROADWAY CENTERLINE SURVEY

A roadway centerline survey in the Red Feather Lakes Planning area will be conducted during summer, 2019 to identify road maintenance priorities through a partnership between Larimer County and the Red Feather Lakes [RFL] community. It completes a 2009-10 centerline survey conducted by Ayres Associates, which determined mainline roads in RFL Village: The 2019 survey will cover the last 14 miles of roads inside the RFL Planning Area.

The RFL community overall supports developing a structure for maintaining roads and infrastructure. The survey is a part of the RFL Area Plan community enhancement goals. It follows four years of strategic planning, prioritization, and input from a 2017 community survey of community members (**Rate of Return: 31.5 %**), as indicated by the answer to this question:

*Is there a need for regular road maintenance (periodic grading, repairs, snow removal) in Red Feather Lakes?*

“Yes” responses: 197 (84.5%)

Larimer County received a \$17,500 grant from the State of Colorado Department of Local Affairs to help fund the project, with the balance of funding approved in the 2019 County Budget. Lamp Rynearson, a firm specializing in surveys, also possessing technical expertise and extensive experience in the RFL area, will conduct the centerline survey.
