YOU'RE IN GOOD HANDS.

Our multidisciplinary team includes all the experts you would typically see in the hospital including:

- ✦ Physicians
- ✦ Nurse practitioners
- ✦ Nurses
- ✦ Pharmacists
- ✦ Behavioral health providers
- ✦ Paramedics
- ✦ Social workers

Our available services include daily assessments, labs, radiology, IV medications, oxygen, and customized health education. We provide electronic tablets and wearable technology for communication and close clinical monitoring. While we incorporate high-tech services, our priority is developing a personal connection with you to best meet your health needs.

WHAT TO EXPECT WHEN ADMITTED INTO ORIGIN HEALTHCARE:

A nurse or paramedic and nurse practitioner will come to your home to perform a complete evaluation and initiate treatment.

Daily in-person visits from your medical team, just like in a traditional hospital setting.

Daily telemedicine visit with a physician.

Our team is available 24 hours a day to respond to your needs.

Wearable smart devices and an electronic tablet keep your vitals, activity, and wellness in front of your care team.

Direct and easy connectivity to your medical team. Your family and caregivers are included in care planning.

Direct communication with your established outpatient clinical team facilitates smooth transitions of care at discharge.
