

The Colorado Spirit Mountain Outreach team was established to support the Colorado Flood areas with their recovery.

The Team serves the entire Larimer County area, going door to door to inform and support survivors about resources available in the community.

All services are free and available to all residents affected by the Colorado Floods.

The Team members are employees of Touchstone Health Partners, a non-profit organization serving Larimer County.

The Team also:

- Connects with you to provide in person assistance
- Distributes informational brochures directly to you and throughout the community
- Organizes support and educational meetings to help you re-establish a sense of community
- Makes formal presentations within the community to educate individuals and groups about available support services and resources

Please see the back of this flyer for our support meeting schedule. The Team would also be available to meet in a location chosen by neighbors.

We would like to meet with you and your neighbors. Let us know of a location and date that can work for you.
