COVID-19 Outreach Team

The Larimer County Health Department has a commitment to working together to create a community free of injustice and obstacles to health.

The COVID-19 pandemic has amplified many inequities that have already existed and that many in our community continue to address.

Latinx communities are one of the most impacted groups by this pandemic

Building Community Partnerships

- Assess language accessibility and cultural sensitivity of important information
- Conduct informational interviews and community survey
- Partner with community leaders and agencies
