Plastic Piping Certification Form

This form needs to be signed by the contractor or homeowner doing the work and given to the building inspector at the time of inspection.

Contractor: _____

Owner Name: _____

Building Permit Number: _____

Job Address: _____

Date Issued: _____

IFGC Section 503.4.1 Plastic Piping, where installed as an exhaust vent for a gas fired water heater, the new plastic pipe shall be tested with 5 psi maximum air pressure at the time of inspection prior to being connected to the water heater. [Same language is found at IRC G2427.4.1 Plastic Piping]

I hereby certify that an air test on the exhaust vent for condensing water heaters was done and tested with 5 psi minimum air pressure, prior to connecting the plastic pipe to the water heater per the code section referenced above.

Print Name of Contractor or Owner: _____

Signature of Contractor or Owner: _____
