Subject: November 2022 Critical Incident Video Released
Date: 3/3/23

A video summary of a November 21, 2022 officer-involved shooting is now available for public access.

In February 2023, the 8th Judicial District Attorney's Office released a [conclusion letter](#) regarding this case. The District Attorney determined that the deputies were justified in their actions. As the suspect is deceased and there is no pending criminal prosecution in this case, the Larimer County Sheriff's Office has provided a video summary that includes audio and video clips from body camera footage.

"2022 brought a record number of critical incidents to our doorstep, and deputies met every situation with professionalism in the face of life-threatening danger," said Larimer County Sheriff John Feyen. "We are very fortunate to have strong support from our community. I believe that by increasing our transparency about critical incidents, while still maintaining respect for the judicial process, we can support a deeper understanding of what our deputies face at any given time."
