## Re: Immediate Needs Grantees - Chance to Tell Your Story

1 message

---

Here you go!

The funding from the Larimer County Immediate Needs Grants project allowed Vindeket to purchase a used 20-foot refrigerated truck that has helped immensely in our mission to rescue food.

The new (to us) truck expanded our fleet to three, allowing us to reach more donors and save more food from the landfill. The truck has helped transport produce, dairy, meat, dry goods and more from stores and suppliers to the Vindeket Market, where it goes straight back into the community to be utilized and enjoyed, rather than thrown away.

We have also been able to repair many of our pieces of equipment - several of which greatly needed the maintenance.

We're so grateful for the generous funding and the opportunity to rescue more food and feed more people.
